[Intro]

I can't prescribe something for your pain
But it might knock you out...

[Hook]

It might knock you out (Hey!)
It might knock you out (Hey!)
It might knock you out (Hey!)
It might knock you out
It might knock you out (Hey!)
It might knock you out (Hey!)
It might knock you out (Hey!)
It might knock you out

[Vs1]

Shorty I gotta be real
Imma make it real plain
Aint no people round here
I'm the player no game

I see you hurting
So close the curtains
Don't do it
And I'll go... hurting you more
So try me if you dare
I've got so much thoughts

So all the ladies say
If you hear me
Don't take no crap
From a man that can treat you like a queen
Baby don't let him degrade you no more tonight
Just give me a chance and imma make it all right

[Pre-chorus]

Why would you settle for less?
When you can have the best
Playing with these other fellas
Got you in around a mess
Just think about it tonight
No pressure I'll give you time

To get your mind right
All so right, rock ya ready for this ride

[Chorus]

I feel that pain on ya
Just sparking ya down
I hate to see ya hurting
It kills me when you cry

I feel that pain on ya
Just let it go
Tick tock with the clock
Times up I think I'm out the door

If you ready for the good life
Tell me, yes
No more hesitations necessary
Girl your with the best
You got that pain on ya
Tears running from your eyes
I can't prescribe something for your pain
But it might knock you out

[Hook]

It might knock you out (Hey!)
It might knock you out (Hey!)
It might knock you out (Hey!)
It might knock you out
It might knock you out (Hey!)
It might knock you out (Hey!)
It might knock you out (Hey!)
It might knock you out

[Vs2]

I remember a time
When you said it made you mad
How could he be so stupid enough
To just look past
The fact that your related should
Be treated with respect
There I said to best don't settle for less
You got a new man, oh damn

And they said he even put his hands on you
He also cheated come on please, he must be a fool
To slack off on the job like (ay, ay, ay)
Can't come to the kerb line (bye-ye-ye)

[Pre-chorus]

Why would you settle for less?
When you can have the best

Playing with these other fellas
Got you in around a mess
Just think about it tonight
No pressure I'll give you time
To get your mind right
All so right, rock ya ready for this ride

[Chorus]

I feel that pain on ya
Just sparking ya down
I hate to see ya hurting
It kills me when you cry

I feel that pain on ya
Just let it go
Tick tock with the clock
Times up I think I'm out the door

If you ready for the good life
Tell me, yes
No more hesitations necessary
Girl your with the best
You got that pain on ya
Tears running from your eyes
I can't prescribe something for your pain
But it might knock you out

[Bridge]

Why do you put up with this fool?
He don't deserve a girl as sweet as you
Calm down baby, it's clear your mine
I'm offering you more then you had the last time

[Chorus]

I feel that pain on ya
Just sparking ya down
I hate to see ya hurting
It kills me when you cry

I feel that pain on ya
Just let it go
Tick tock with the clock
Times up I think I'm out the door

If you ready for the good life
Tell me, yes
No more hesitations necessary
Girl your with the best
You got that pain on ya
Tears running from your eyes
I can't prescribe something for your pain

But it might knock you out

[Hook]

It might knock you out (Hey!)

It might knock you out (Hey!)

It might knock you out (Hey!)

It might knock you out

It might knock you out (Hey!)

It might knock you out (Hey!)

It might knock you out (Hey!)

It might knock you out
