I see you not like you do
Not the part but the whole
Stage lights on now take your cue
Alright Alright Alright

Why so scared of your shadow
Prisoner of your own life
Sleeping on your star of gold
Alright Alright Alright

You were born for this
You were born for this
C'mon light it up
It's your life you don't want to miss

You were born for this
You were born for this
C'mon light it up
It's your life you don't want to miss you
You don't want to miss you
You don't want to miss you
Alright Alright, I said Alright Alright

No one else can play your part
Liberate all of your dreams
Speak the lines within your heart
Alright Alright Alright

You were born for this
You were born for this
C'mon light it up
It's your life you don't want to miss

You were born for this
You were born for this
C'mon light it up
It's your life you don't want to miss you
You don't want to miss you
You don't want to miss you
Alright Alright, I said Alright Alright

Alright

Don't believe in the rules
Don't believe in the stars
I believe you were made for your life
Yes you are
Alright Alright Alright

You were born for this
You were born for this
C'mon light it up
It's your life you don't want to miss

You were born for this
You were born for this
C'mon light it up
It's your life you don't want to miss

You were born for this
You were born for this
C'mon light it up
It's your life you don't want to miss

You were born for this
You were born for this
C'mon light it up
It's your life you don't want to miss you
You don't want to miss you
You don't want to miss you
Alright Alright, I said Alright Alright
