Door closes
I'm blown away
Goodnight kiss
You drive me crazy

Watch you go
Till your car's out of sight
You can take me out
Every night

CHORUS:
Can't get you out of my head
I'm gettin' ready to fall over you
You're sticking like glue
Yeah I want you all to myself
Can't get you off of my mind
I'm feeling lucky to start
I don't know
It's not for sure
But you got something different
And I can't stop falling
I can't stop falling
No I can't stop falling for you
(I'm falling)

Come closer
Sweet maybe
One touch enough
I'm going crazy

Don't let go
I've never been here before
So into you
You leave me wantin' more

CHORUS:
Can't get you out of my head
I'm gettin' ready to fall over you
You're sticking like glue
Yeah I want you all to myself
Can't get you off of my mind

I'm feeling lucky to start
I don't know
It's not for sure
But you got something different
And I can't stop falling
I can't stop falling
No I can't stop falling for you
(I'm falling)

I'm a helpless love
I can't get enough
I'll bet you I'm not gonna let you go

Can't get you out of my head
I'm gettin' ready to fall over you
You're sticking like glue
Yeah I want you all to myself
Can't get you off of my mind
I'm out of my mind
Boy cause you got something different
And I can't stop falling
I can't stop falling
No I can't stop falling for you
I'm falling
No I can't stop falling
I can't stop falling
No I can't stop falling for you
(falling I'm falling)

Door closes
I'm blown away
Goodnight kiss
You drive me crazy
