Under the neon  
Here comes another poor fool  
Makin' his move  
Its so depressing  
To know his intentions are true  
What do I have to do?

Chorus:  
For one good man  
Who understands  
That lovin' me means waitin'  
On that golden band  
Steady and Strong  
That I can count on  
And won't let me go  
Something that'll last  
Is it too much to ask?  
For One Good Man

I thought my baby  
Had saved me from this  
lonely crowd, for cryin out loud  
He promised me that  
Forever is what we had found  
But where is he now?

Chorus:

When the lights come up  
And the musics gone down  
I'd rather leave alone than without

Chorus:

One good man  
Who understands  
One good man
