[feat. Kelly Rowland]

Slow [x5]

[Ali:]

I told her cut the lights low, turn on the stereo
Take your clothes off, leave on the radio
Come sit close to me, this how it's supposed to be
We can drink a lil drank, smoke a lil weed, pop a pill
It's whatever she want it don't matter to me
She scream like... when she get on top of me
When I get it from the back, when I hit it from the side it
ain't no stopping me
And she don't want him she just want me well pimp
that's obviously
We doing it slow, it's early in the morning a quarter to 4
She teasin' me, teasin' me as she drop it low
Ain't tryna move fast baby let's go

[Chorus: Kelly Rowland]

Slow motion
Girl you fast why don't you give me that
Slow motion
Hop on this dick baby girl give me that
Slow, slow motion
We can go a couple rounds but we gotta slow it down

[Kelly Rowland:]

Gone and tap my body, yeah my body calling

[Strap:]

I know what it's saying by the way your body talking

[Kelly Rowland:]

When I move my body slow do it make you want me
more

[Strap:]

The way you moving on that pole make me wanna
break you off and ohh... I like it like that she working
her back, I don't know how to act. make me wanna sign
you, can we make a contract. got me up behind you,
and I'm lovin' that ass. gotta body like a goddess, yeah
she cold. I'm tryna get you outta all them clothes. you

been dancing too fast, take it slow. in a trans with that
ass, girl I love that way you give me that...

[Chorus: Kelly Rowland]

Slow motion

Girl you fast why don't you give me that

Slow motion

Hop on this dick baby girl give me that

Slow, slow motion

We can go a couple rounds but we gotta slow it down

[Quez:]

It's sunday night, coolin' it at home

Shawty hit my phone, said she's home alone

Told her to come on, she know I wanna...

Then I sent a deal, couple shots of patron

So my mack right she said she will go down if I act right

Who knows, she blows it down like a bad pipe

You know you a pro and that's a fact right there

And we can do it slow motion, motion

You know what I need...

[Chorus: Kelly Rowland]

Slow motion

Girl you fast why don't you give me that

Slow motion

Hop on this dick baby girl give me that

Slow, slow motion

We can go a couple rounds but we gotta slow it down
