There's this girl (this girl)  
The one and only wonder of this world (my world)  
And it don't matter if the road gets rough  
If me rich or poor  
She stay down with me if me go to war

Love you cause you are  
Every single star  
In the constellation that's a light in my heart  
Specially from Jah  
Therefore you are, yes  
Girl you got more presence than a hundred Santa  
Clauses  
And I know (I know)  
We'll stand together when the world falls down (falls  
down)  
And I Know (I know)  
That our forever gonna start right now (right now)

There's this girl (this girl)  
The one and only wonder of this world (my world)  
And it don't matter if the road gets rough  
If me rich or poor  
She stay down with me if me go to war

There's this girl (this girl)  
The one and only wonder of this world (my world)  
And it don't matter if the road gets rough  
If me rich or poor  
She stay down with me til me hit the floor

These are hardest times  
Loves so hard to find  
Blessed is the man who has a woman at his side  
This that I'll do right  
Never do me wrong  
If ya ever missing me just listen to this song  
And you know (you know)  
We'll get together when the sun goes down (goes  
down)  
And I know (I know)

Still be together when it comes back round (back round)

There's this girl (this girl)  
The one and only wonder of this world (my world)  
And it don't matter if the road gets rough  
If me rich or poor  
She stay down with me if me go to war

There's this girl (this girl)  
The one and only wonder of this world (my world)  
And it don't matter if the road gets rough  
If me rich or poor  
She stay down with me til me hit the floor

I say she stay down with me if me go to war  
I say she stay down with me til me hit the floor
