Remember when we walked along the beach and
We watched the water dance around our feet and
And I could think of a thousand reasons
I think they made a movie about that

Remember when we sat upon your roof and
We watched the stars as they were slightly moving
Maybe it was just me and you girl
I think they made a movie about that

And all we need to make this story true's
A little bit of me and you girl
I just want you to see that
Our love is like a fairytale to me.
Whoa, whoa

Remember when I said "I love you forever"
Two weeks later, break up was for better
One week after, we were back together
I think they made a movie about that

Remember when we walked along the street and
A single light was shining down on you and me
I was so nervous I couldn't see girl
I think they made a movie about that

And where we go, it's only up to you
And who you know it's only up to you
And if you show, it's only up to you
But it's up to both me and you

Life is like a fairytale or movie
With pirate ships and pieces really groovy
We got butt loose making a smoothies
Yeah, that's why I made a movie about us

And all we need to make this story true's
A little bit of me and you girl
I just want you to see that
Our love is like a fairytale to me. Whoa, whoa

And all we need to make this story true's

A little bit of me and you girl
I just want you to see that
Our love is like a fairytale.
