I said one thing I'd never do was care
Or hang around for too long anywhere
I could always move ahead with nothing left behind
And then you started messin' with my mind

This town was just another place to play
TO have some fun and then be on my way
And you were just another way for me to pass some
time
And then you started messin' with my mind

(chorus)
I can't believe how much my mind has changed
Or the way my life's been rearranged
I swore one thing I'd never do was be the staying kind
And then you started messin' with my mind

The first in line for party time was me
Always the last to leave or tried to be
I never thought I'd want to change
That suited me just fine
And then you started messin' with my mind

(repeat chorus)
I swore one thing I'd never do was be the staying kind
And then you started messin' with my mind
