"Out Of My Bones"

Visit "[Out Of My Bones](#)" on MotoLyrics.com

I'm in need of a remedy to cure me from loving you
It may sound a little extreme, but I know what I'll have
to do

Bury your jacket in my backyard
Carry your picture in my shoe
And keep walkin' till the hurtin' stops
Keep walkin' till my temperature drops
Keep walkin' till the fever is gone
And you're out of my bones

I'm in need of medicine
Something stong that'll work real fast
That I can take to fortify me
Keep my arms from taking you back
Chased that ghost out from under my bed
Still these voices in my head
That keep talking, leavin' their spells
And I'm talkin' to myself
I keep talkin' from daylight till dawn
Till you're out of my bones

Sweet amnesia, come and set me free
I just need to get you out of me

INSTRUMENTAL

Bury your jacket in my backyard
Carry your picture in my shoe
And keep walkin' till the hurtin' stops
Keep walkin' till my temperature drops
Keep walkin' till the fever is gone
And you're out of my bones
