Here it is Christmas day and you're many miles away
And I wonder if you feel the way I do
In the air there's happiness, but in me, there's
loneliness
For all I want for Christmas dear, is you

Presents wrapped in green and gold, have no arms for
me to hold
No lips to whisper softly, I love you
Oh, how happy I would be to find you underneath my
tree
For all I want for Christmas dear, is you

Presents wrapped in green and gold, have no arms for
me to hold
No lips to whisper softly, I love you
Oh, how happy I would be to find you underneath my
tree
For all I want for Christmas dear, is you

Yes darling, all I want for Christmas dear, is you
