How did I wake up each day  
Before that moment I saw you face?  
Where was I before your touch?  
Nowhere is where I was

Without you, without you in it, my life was just a lie  
And before you, I don't know how I got by

Before I met you, before I held you in the night  
(I don't know how I survived)  
Before I found you, before you made everything right  
(I was half alive)  
I wasn't really living till you came into my life  
I got through, babe, well, I don't know how I got by

How did I get through those nights  
Before that moment I held you tight?  
Where was I before your kiss  
And I how did I exist without you?

Life had no meaning, no reason and no rhyme  
And before you, I don't know how I got by

Before I met you, before I held you in the night  
(I don't know how I survived)  
Before I found you, before you made everything right  
(I was half alive)  
I wasn't really living till you came into my life  
I got through, babe, I don't know how I got by

Thank God when I wake each day  
Awaken next to you  
Don't know what I was living for  
Before you, before you

Before I met you, before I held you in the night  
(I don't know how I survived)  
Before I found you, before you made everything right  
(I was half alive)

I wasn't really living till you came into my life  
I got through, babe, but I don't know how I got by

Before I found you, I don't know how I got by
