There ain't a road that we ain't traveled
Good times and bad both great and small
And when it seemed it all would all come unraveled
We held each other and we stood tall

And all my dreams are still about you
You're still the answer I need when I call
While some may seem in life that they've had nothing
You and I girl we've had it all

Never imagined when I first met you
That our love would last so long
The fire still burns each time I touch you
The strength inside you has made me strong

And all my dreams are still about you
You're still the answer I need when I call
While some may seem in life that they've had nothing
You and I girl we've had it all

We've let nothing come between us
We've stood the cold hard test of time
Vowes we've made and never broken
Oh 'cause I've cherished yours you've cherished mine

I can't remember my life without you
Our hearts together have made us whole
When we complete our final journey
I'll have your spirit and you'll have my soul
'Cause you and I girl we've had it all
