The road that we've traveled
Ain't always been easy
Lord knows we've both seen our share
Of troubles and trials
It's hard to believe
We made it so far together
But just between you and me darlin'
It was worth every mile

It was worth every storm
We had to weather
It was worth all the evenings
That we cried together
When the going got toughest
I could count on your smile
And lookin' back now I can say
It was worth every mile

I know you and I both had our doubts
That we'd make it
But deep in the back of our hearts
We knew all the while
That love's not for quitters
So we kept ourself moving
Oh and I think you'll have to agree
It was worth every mile

It was worth every storm
We had to weather
It was worth all the evenings
We cried together
When the going got toughest
I could count on your smile
And lookin' back now I can say
It was worth every mile
And lookin' back now I can say
It was worth every mile
