You took a walk on the shape of my heart  
And left there warmth of resumption  
Some say "love's cruel", "makes you blind"  
I've ran out of patinece, no hesitation

It took so long to look you in the eye  
No one can let me down

Breathe me and see  
How it feels when i look at you  
I just wanna dream  
Right next to you  
Laid down in falling leaves

I wrote the ending so many times  
But i was never able to start it  
With you here with your hand in mine

I'm ready to say the words worth sayin'

It took so long to look you in the eye  
No one can let me down

Breathe me and see  
How it feels when i look at you  
I just wanna dream  
Right next to you  
Laid down in falling leaves

I'd never let you go  
I could never ever let go  
Someone like you  
I wanna know you close  
Love you truly forever  
Baby i need you
