"All For Us"

Visit "[All For Us](#)" on MotoLyrics.com

All for one
One for all
Untied we stand
Divided we fall
All of us or none of us
Everyone or None
All of us or none of us at all
All for one
One for all
United we stand,
Divided we fall
One people, one race, one life
It's time we get it right
What the hell are we fighting for
Red in the face for a race war
Take a good look at our history
Shouldn't really come as a mystery
Take a good look back at our past
It's not about race
It's all about class
Are not all people created equal in the eyes of God
Are not all people in the world today find themselves at
desperate odds
Freedom in a land where
Freedom isn't free
What's it going to take to make
The people see
The enemy isn't you or me
All for one
One for all
United we stand
Divided we fall
All of us or none of us
Everyone or none
All of us or none of us
All of us or none of us at all
