Passing out in parking lots  
Living low sweating tents  
Waking up passing out  
Completely fucking spent  
Living low because I'll chance  
Living low but I made a thousand dance  
Beat me down in the cell but I won't break  
Beat me down in the cell but I won't break  
I learned not to make the same mistakes  
Beat me down in the cell but I won't break  
No I won't break I won't break no  
Got you in my rear view  
Pull me over flashing blues  
Ask me for some honesty  
Use it to arrest me  
Living low because I'll chance  
Living low but I made a thousand dance  
Beat me down in the cell but I won't break  
Beat me down in the cell but I won't break  
They can chase me from state to state to state  
Beat me down in the cell but I won't break  
I won't break I won't  
Try to crush my spirit  
Can't even get near it  
NO I won't break I won't break NO
