Lost my baby in the Cemetery
Lost my baby in the Cemetery
Driving around with no place to go
How many times has this happened before
Feelings of madness feelings of pain
Don't think I'll ever be the same
Lost my baby in the Cemetery, lost my baby
In the Cemetery
In the graveyard I can't find her grave
Her name got wiped away
Polluted by progress stealing my dreams
Wiping clean my memories
Her epitaph got erased I can't find her resting place
Her name got wiped away, now I have no place to pray
Lost my baby in the Cemetery, lost my baby in the
Cemetery
Acid rain wipes the names right off graves
Respect for the living Respect for the dead
Lost my baby in the Cemetery, lost my
Baby in the Cemetery
Her epitaph got erased, I can't find her resting place
Her name got wiped away, now I have no place to pray
Lost my baby in the Cemetery, got no place to pray
Lost my baby in the Cemetery, her name got wiped
away
Lost my baby in the Cemetery
Lost my baby in the Cemetery
