

Treble Charger "Sick Friend Called"

Visit "[Sick Friend Called](#)" on MotoLyrics.com

I've been farther out
I found out that something's wrong
There's no phone around here

Won't be gone awhile
Wait and see before you dial
Cause I know what you mean

Maybe once in a while
I can see without pretending
I don't know, now that it rings

I know where I've been
Half a world is seen for a mile

It's behaving now
Crossed the line and two lanes down
It's the point that is dear

Got it in the car
Missed a left and drove too far
Didn't know anyway
