I'm just trying not to listen
I've been hanging around
All the things that you mentioned
Kinda sink in the ground

There's a kind of emotion
That describes how I feel
If you've been paying attention
It's not such a big deal

I like your style, I don't know how
The only thing that I need now
I like your style, I don't know how
The only thing that I need now

I'm just trying not to listen
I've been hanging around
All the things that you've mentioned
Kinda sink in the ground

I like your style, I don't know how
The only thing that I need now
I like your style, I don't know how
The only thing that I need now
