Ahhh!

[Kool Keith]

I look at rappers with maximun equation  
X-ray vison invasion  
Rhyme connects perfects insects  
That crawl and try to bite my rhymes  
Pesticides I'm the double D combine the T  
Thats DDT  
A chemical more to better to burn  
Roaches, germs, mouse, lice, termites and percurious  
bugs  
Or try thugs who perpotrate  
Nothing within contaminate  
Got my gloves on  
So bring turtle doves on  
Watch me pluck em and pick em  
Stick em kick em and vic em  
I see you're featherless  
You got the birdy disease  
Bite any rhymes that I have for ya  
The poison is bad for ya stupid  
You're equal measure to dirt dust grime and puss  
You're just a rappin infection  
Dirtlizin my section like a six-legga  
Ya betta step off and walk ya pure roach

(laughing)
