And in the back door, came the 5-0  
Looking for that nigga that's shootin them bitches  
In the motherfucking pussy hole strapped  
With moss artillery  
Fucking up everything in my crib  
It's a good thing I hid  
All my dope, all my gats, all the evidence  
So they never knew that the killer ever stayed at this  
residence  
Crept out the back window  
Thinking about what I'ma do cause if they catch me I'm  
through, yo  
Called up some better  
Yo, folks need a place to post up  
They got me on the run, too close for most  
Hung up the phone and I'm ghost  
I'm pulling out this motherfucker never catch a nigga  
Slipping, yo, right on time and not a moment too soon  
Round the corner here comes that 5-0 and let my  
trigger go  
BOOM, bustin everything in sight  
Cause there'll be one less motherfucking cop tonight  
And I'll be damned if I ever catch a cap  
Cause ain't no future if you front when you're fucking  
with a mac  
BLAM, and there she flows  
How many cops died? no one knows  
Sitting in my crib like the night before  
Forty ounce in my lap and I'm good to go  
But in that back door came the 5-0  
Looking for that nigga shooting them bitches in the  
motherfucking pussy hole  
A nigga will shoot, killing them cops  
The trigger went off, never will stop  
They figure they'll justify the shots when the killer  
straight dropped  
But i'ma tell you like this nigga roll  
Before you go out your front, watch your back door  
And you don't stop...
