### "St. Paul's Cathedral At Night"

Visit "[St. Paul's Cathedral At Night](#)" on MotoLyrics.com

Got a postcard from her:  
St. Paul's Cathedral At Night.  
Spent a couple of days  
Trying to read between the lines:  
Now I don't have to read between the lines.

Talking in an empty cinema,  
Walking back through Parliament Square.  
St.James's Park at Christmas-time:  
Glimpsing the lake through the evening lights.

I didn't want there to come an end to our time.  
I know I'm in no position to miss her,  
Shouldn't hold her so close when she goes;  
Still I wonder what she was thinking  
As she travelled home
