I don't know what you've been told
About the Viking probe
Or the photos of
Martian pyramids
The evidence is obvious that there exists another form
of
Now on the red planet
Why won't they just admit?
Why won't they let us know?
What the photos show
The evidence is obvious that there exists another form
of
Intelligence but mankind just afraid to face themselves
The Great Galactic Ghoul
Has made us look like fools
And in a perfect flight
Smashed a satellite
MATE THE APE, WITH THE ALIEN
THE SEED, THE SERPENT, IN THE GARDEN
IS ALL HUMANITY JUST A BLASPHEMY
MADE IN THE IMAGE OF SOMETHING ODD
I know it sounds bizarre
But there's a face on mars
Why do they hide the fact?
Of alien artifact
While NASA still denies alien life survives
Why won't they let us know?
What the photos show
The evidence is obvious that there exists another form
of
Intelligence but mankind just afraid to face themselves
with the truth
Out in the depths of space
There lives an ancient race
Did our missing link
Build the Martian Sphinx
