I don't know if I'm right but I know they're wrong they  
try to weaken me but that just makes me strong I try I  
try I try harder every day you can't put me down there's  
just no way try to break me down try to break me down  
try to break me down but there's no fucking way I try  
harder every day Life is hard enough but they just want  
too much I just can't relate to a senseless selfish mind  
that hates you're gonna get ahead at any cost the real  
value to life is what you've lost I try I try (chorus) try  
harder every day try harder every day I try harder  
every day STRONG- ALL DAY LONG I try harder every  
day can't break me down there's just no way try to  
break me down (2x) but there's no fucking way cause I  
try harder every day- TRY
