"Upside Down from Here"

Visit "[Upside Down from Here](#)" on MotoLyrics.com

From Antarctica to the polar caps
Tried to fit a big orb on a little flat map
I'm not going to drive this time
I love Greenland when it's Africa sized
North is not up
And east is not right
Except for Milwaukee, Wisconsin, that night
Well, I know what it feels like
To be upside down from here

From Antarctica to the polar caps
Tried to fit a big orb on a little flat map
I'm not going to drive this time
I love Greenland when it's Africa sized
North is not up
And east is not right
Except for Milwaukee, Wisconsin, that night
(So look at a map and learn where you live)
Well, I know what it feels like
To be upside down from here

And if we met halfway in
The middle of the planet
Would we just sit there and spin?
Could that happen?
Can it?

Nice!
