Love never meant to much to me laughed at all those
old time movies
I didnt believe in love my love
settlling down jsut seemed so final stuck in one place
like a broken vinyl
No I didnt believe in love my love
Then you came a long like a sweet Sinatra song
And the worries that were mine were gone gone gone
I've got to buy me some dancing shoes ' cause
everytime im with you
I want to sing it like they used to swing it like they used

All my troubles seem to fade away what will be will be
like Doris Day
Everytime you smile at me my love
And the modern world disappears then all the lights
become chandeliers
Everytime you smile at me my love
And it feels so right holding you in the moonlight
I guess somethings are better,baby, in black and white
I got to get me a three piece suit ' cause everytime im
with you
I want to sing it like they used to swing it like they used
to

And it feels so right holding you in the moonlight
I guess somethings are better,baby,better in black and
white
Now i'm a dog dang diggity fool 'cause everytime i'm
with you
I want to sing it like they used to swing it like they used
to in 1942
'cause every time i'm with you I want to sing it like they
used to
Swing it like they used to Love you like they used to do.
