"Number One"

Visit "[Number One](#)" on MotoLyrics.com

I picture the rain on windows and I think of home
I wonder if you remember, did you ever know?

Places I dream about I will be gettin' out
Then I can follow the sun
You will be with me, I know you will give me
A hand to get everything done

Call me number one, call me number one!

Will I be afraid to tell you that I'm coming home
I'm ready to take the highroad, I've been away too long

Places I dream about I will be gettin' out
Then I can follow the sun
You will be with me, I know you will give me
A hand to get everything done

Call me number one, call me number one!

Places I dream about I will be gettin' out
Will she call me number one
Will she call me number one
