You know how I love to be with you  
Girl you know that it's true  
We go together so good  
When you touch me there  
When you kiss that way  
Baby you just take my breath away  
When you move in close  
Your skin's on mine  
Don't stop, 'cos we're doin' it right  
You've turned me around  
I can't let you go  
I'll make you see we're MFE  
Now matter how long  
It takes me to show  
You've gotta believe  
We're MFE  
I don't know how long I've tried to prove  
That I'm the one for you  
So don't play games with my mind  
When you touch me there  
When you kiss that way  
Baby you just take my breath away  
When you move in close  
Feel your skin on mine  
Don't stop, 'cos we're doin' in right  
(Repeat chorus)  
Rap: Blue skies in your eyes  
I've got the feeling  
Tell me this baby  
do you get the meaning  
I love you love what you wanna do  
love  
Sure 'nuff sugar pie we can think it through  
love  
Bit of this with a touch of your behaviour  
You can be my cutie pie  
cos you got the flavour  
Straight up no lie if you never know  
We will forever be MFE  
When you touch me there  
When you kiss that way  
Baby you just take my breath away  
When you move in close  
Your skin's on mine  
Don't stop, 'cos we're doin' in right  
(Repeat chorus to fade)
