Kylie give me..

Kylie give me..

Baby, you're the one that melt my heart

I swear I'm not lying

Maybe tonight I'm gonna try my luck

I can see that you want me

I'm dreaming about you every night

Every night

[REF]

Kylie give me just a chance

Lets go out and dance

We can get into the groove

I can watch you move

Later you can sing to me

Like a shining star

But I rather do you on the backseat of my car (x2)

Baby, take a minute check me out

I sit in the frontrow

Baby, I'm the coolest guy in the crowd

I'm sure you have seen me

I'm dreaming about you every night

Every night

[REF]

Kylie give me just a chance

Lets go out and dance

We can get into the groove

I can watch you move

Later you can sing to me

Like a shining star

But I rather do you on the backseat of my car (x2)

You drive me crazy

You slowly drive me crazy

Think about you baby

Can't get you out of my mind

I should be lucky

I should be so lucky
I should be lucky to sleep with you tonight

(Kylie, kylie, kylie)
