[Lee Wilson]

I tried to be the one
The one who brought the sun
into your life to brighten up the day
But it wasn't good enough
Cause you showed me no love
I guess it's best to go on separate ways

Can say I did a try
Cause I was there day and night
Just to try and proof how down I was for you
But it's alright
I move on with my life
I guess it's better to those lonely nights

[REF]

(I aint tryin to stay up baby
if you don't wanna be my lady)
I guess this is the end
So I say peace oohhh
(Thought that we should something special
but I wasn't what you paged)
I guess this is the end so I say peace yeah yeah

The world knows I tried
Cause girl I'd sacrifice
I put your needs before my own
Was just tryin' to share my time
and you in my life
Just tryin' to be the man you wanted

Can see I did a try (can see I did a try)
Cause i was there day and night
Just to tryin' to proof how down I was for you
But it's alright
I move on with my life
I guess I was always alone
Cause you wasn't by my side

This ain't all about you
mami you ain't admire
It ain't all about me
and the slug of tire
Got no time for these games
man it makes me tired
when me and you together were together
it was aim and fire
But then I oh
I get a extra stat in the back who was that
get a cat tell em' in the court back
well that's cool
I tell my men that's cool
Does this re'ran to the back of the van ho
stay cool mami
I'm on a move get a groove mami
Shortie want me back nothin'
I can do mami
You know the block when the game show shit
shii I hit this quick then the swift gets stick (oh)
Listen I ain't forget but i'm past you
So when you see the ace you see that I past through
(peace)
