black and white by Leech  
skip fast to the flash  
invariably  
the very same crap they spat last week  
could someone be a little more objective please  
it isn't even suitable for animal feed  
sit back and relax  
i got something you won't buy  
it's never black and white  
swift axe to the hacks  
the hollywood heels  
the very same flick you caught last year  
the actor gets cast in everything  
could someone be a little more original please  
sit back and relax  
i got something you won't buy  
it's never black and white
