"Another Sunday"

Visit "[Another Sunday](#)" on MotoLyrics.com

Another sunday came round
To your quiet grey town
The sun went down
So you could sleep at night

So why not wait?
Come and spend time with me
The sadness you will see can make us shine
So why not wait just another day
The sadness you will see can make us shine

Another story of mine
I've been telling everyone
Let it shine
And bury it tonight

If I've got what you want
Then you should try to catch me

So why not wait
Come and spend time with me
The sadness you will see can make us shine
Why not wait just another day
The sadness you will see can make us shine
