"Call It Ours"

Visit "[Call It Ours](#)" on MotoLyrics.com

it's hard for you to understand the things it takes to
make this feel alright
and it's hard for me to comprehend when every little
favor is too much

we could waste this
she said go, go go go
we could lose it
i said no, no no no

we could have whatever we need
we could call it ours
you take the blame and save it up
inside your mind

so easily you take a stand the opposite of everything i
say
then you always understand and put some sense into
what i explain

we could waste this
she said go, go go go
we could lose it
i said no, no no no

we could have whatever we need
we could call it ours
you take the blame and save it up
inside your mind
