"Closer"

Tell me baby why am I here?
I don't want your body near
Something is really weird
This is too physical for me
There is blood
There are tears
It is all part of my fears
And it might seem pretty weird
I even wish I didn't have to eat

You say you need love in your eyes
I don't want the one to show you
You say you will live a lover's life
I'm not gonna be the one who knows you

Tell me baby why am I here?
I don't want yo hold you dear
And I wish you could be
A little further away for me

I no longer hope for more
More I don't want
I only wish that I could feel free
