"Nothing On Tv"

I found some piece of mind
Now I'm back again
Nothing's on tv
I'm sending my love here
Then something gets me down
It's a right hand
Late at night in bed I see what awaits me
Cause this is where I will be

I wasn't that smart
As I caught your eyes and figured there's a heart
Hand over parts of the love we're missing
I want a brand new start
I wasn't that smart
Now you're taking it too far

Now I see your kind
I know what's on your mind
Behind your indie style there's a strange smile
Power's on your side and you know this
People hold you close
You can't loose
Cause it's the way it should be
