Legends of Rodeo
"Bartender"

Everybody's talkin' 'bout this little girl that works
downtown
I don't even know her name
She bartends on Friday nights
Mixes drinks and picks her fights
I don't even know her name

Uptown boys say that she's a knockout
And the downtown boys stay till they get kicked out
If I knew her favorite song
I'd play it on the jukebox all night long

When she works that place is packed
All the dudes keep crawling back
They don't even know her name
Tonight we're stayin' all night long
Or until the moneys gone
We don't even know her name

Uptown boys say that she's a knockout
And the downtown boys stay till they get kicked out
If I knew her favorite song
I'd play it on the jukebox all night long
I'd play it all night long
(Check it out)

Everybody's talkin' 'bout this little girl that works
downtown
I don't even know her name
Blond hair, brown eyes, long legs, electric things
I don't even know her name

Uptown boys say that she's a knockout
And the downtown boys stay till they get kicked out
If I knew her favorite song
I'd play it on the jukebox all night long
I'd play it all night long

All the dudes write love lines to her up on the bathroom
walls
And some guys swear they got her number but she

don't get no calls
One more scotch boys
One more round and I'll work up the nerve I swear
But last call comes and last call goes
And I'm still sitting here

Uptown boys say that she's a knockout
And the downtown boys stay till they get kicked out
If I knew her favorite song
I'd play it on the jukebox all night long

Uptown boys say that she's a knockout
And the downtown boys stay till they get kicked out
If I knew her favorite song
I'd play it on the jukebox all night long

If I knew her favorite song
I'd play it on the jukebox all night long
I'd play it all night long
I'd play it all night long
