If you had money I could borrow
I think I would leave for Mexico
I think I would take a long vacation
Get in the car and go

So sweet Savannah and Atlanta, Birmingham and
Baton Rouge
I've gotta find a new sensation
So I'll just be passing through

And it's a long road I'm going down
And it's a long, long time that I'll be gone
To make everything cool someday
And it's a long road I'm going down
And it's a long, long time that I'll be gone
To make everything cool someday

Now I'm in Houston, next is Tucson
I'm feeling better by the day
My loads getting lighter cause I'm rid of debts that I
can't pay

And when I get to Santa Ana, I'm gonna bury all my
ghosts
And then I'll find my new sensation
I'm gonna take it slow

And it's a long road I'm going down
And it's a long, long time that I'll be gone
To make everything cool someday
And it's a long road I'm going down
And it's a long, long time that I'll be gone
To make everything cool someday

Well its long, long road I'm goin down
I gotta long, long way to go
So pop in the key

Turn the ignition
Gonna find a cure
For this lonely condition

Put it in drive
Turn on the headlights
Been too long since I felt alive

And it's a long road I'm going down
And it's a long, long time that I'll be gone
To make everything cool someday
And it's a long road I'm going down
And it's a long, long time that I'll be gone
To make everything cool someday

Turn the radio
Turn the radio on
Turn the radio
Turn the radio on
It's a long, long road
It's long, long road
