Created with the rubbish of morality  
I was only your brother but  
Now I'm a spirit I'm a nightmare  
Still born of humanity  
A rotten child addicted to sluts  
I disgust you but I don't care  
Incarnation of the plague  
Society's creation!

Decease my life. Decease...

Tomorrow is nothing  
Just an illusion of the future  
Since my dreams are bleeding  
The drop of my blood's fever.

Decease my life. Decease...

Addicted to perversion  
Watching the world suffer  
Gives me satisfaction...  
Gives me an erection... :-)

I'm sorry, I apologise  
Cause I know that  
My personality disturbs  
Your everyday live's false morality  
I'm here to kick your fucking ass

Politics is a goddamn art of lies!  
I crap on religion  
Morality is a holy prison of mind!  
Break the law, it's time for action

Decease my life. Decease...
