"My Drugs"

Visit "[My Drugs](#)" on MotoLyrics.com

I got you in and out of space last night and brought you
into my home
Kiss with me, let that this ash was dry and then you let
your cotton roll.
Now you're busting a come out and you're scratching
your red eyes
Well, stop booming around, take your cold and closing
plans are out.

You never want my love, but only want my drugs.
You never want my love.

I'm high and I like it, moving cars on a play,
The next summer days we'll standing the rest of our
lifetimes running away.

You never want my love, you only want my drugs.
You never want my love.

Looking out from my stage tonight, I was wishing my
worst day along
Pick up the quarter by the whole I came, call you on my
telephone.

Bust in and bun out and we slept into my bias,
We'll stop filling around, take our bum out, dancing
friends are out.

You never want my love, you only want my drugs.
You never want my love.
