I'm not gonna take it back tonight  
No one to tell us how to live our lives at the arrival, yet  
And when it comes away, the revelation came today  
Then it fell before our eyes, leaving with desire, you  
know.

Peace can do no wrong,  
Peace can do no wrong.

Circle in a town bionics,  
Circle in a jungle, and you're on it, alright.  
Now you got it figured out,  
A beam of light burst through the clouds  
And we call it to the sky, how to make you mine  
So it's called, it's called.

Peace can do no wrong,  
Peace can do no wrong,  
Peace can do no wrong,  
Peace can do no wrong.

I'd like to see you try  
Living all into the wild  
Near at the end to play a role  
Now we're back where we belong.

Peace can do no wrong,  
Peace can do no wrong.  
Peace can do no wrong,  
Peace can do no wrong.
