I must confess that this place is a mess  
and that no one will ever know about my awkwardness  
you see  
this emptiness that is so much stress to me  
your death but innocent is something good to see  
where are you going when your not even showing  
your signs of relation that these kids they all knowing  
birds that fly together  
its always in good weather  
you'll find it hard to fly  
with water on your feathers  
people pay attention to pottery's high dimensions  
while the kids are in detention for their red eyed  
intentions  
first time I got caught  
brought me into a thought  
that they'd put you away for life  
then your locked up in this

I can't think of a time  
when I could write a rhyme  
about the way that I feel when I'm with you  
you make my life complete  
innocent yet discrete  
no one can touch me when I'm dancing in the pottery

green trees dirt piles and planting seeds  
what I need for me and my family tree  
has never been involved to a place where  
nobody cares and the stopped with  
the stars and they try to prepare  
your in the circle now now no need to  
show you how I know you've seen this movie before  
sometimes you cant ignore  
then your ass gets kicked  
out the motherfuckin side door

I can't think of a time  
when I could write a rhyme  
about the way that I feel when I'm with you  
you make my life complete

innocent yet discrete  
no one can touch me when I'm dancing in the pottery

In the pottery  
simulated swan dive  
hands in your pocket  
mental overdrive  
the clock is ticking but time stands still  
we'll change the world at our own free will  
In the pottery  
simulated swan dive  
hands in your pocket  
mental overdrive  
the clock is ticking but time stands still  
we'll change the world at our own free will

hit the pottery one more time  
helps me sing and helps me write my rhyme  
hit the pottery one more time  
helps me sing and helps me write my rhyme  
hit the pottery one more time  
helps me sing and helps me write my rhyme  
hit the pottery one more time  
helps me sing and helps me write my rhyme
