So many stars outside tonight
in the air
connect the dots and draw your favorite pair of shoes
while youre walking on the blues with messed up hair
i think youre gone but now i see you everywhere
i think youre gone but now i see you everywhere

so i close my eyes and say goodnight
i am fading fast
there's no room for red balloons amongst the air
I breathe and sigh
so many faces on the wall tonight
so i close my eyes and say goodnight

save face and have a drink tonight
your tending bar
get up and turn to leave but wait there you are
driving past me in your car
with messed up hair
i think youre gone but now i see you everywhere

so i close my eyes and say goodnight
i am fading fast
there's no room for red balloons amongst the air
I breathe and sigh
so many faces on the wall tonight
so i close my eyes and say goodnight
