Old days don't come to find me  
This sun is just about to climb  
Up over there  
While my heart is sinking  
I do not want my voice to go out  
Into the air  
Did you leave the darkness without me?  
You're always miles ahead  
And we're standing in tomorrow  
On the runway

All be the music in my head  
The air around my bed  
All be my rest  
Retrace the smile disgraces  
Of the time embraces  
That I never really loved  
Did you leave the darkness without me?  
You're always miles ahead  
And we're standing in tomorrow  
On the runway

Oh I want to fly, fly far around the blue light  
To be alive, come alive  
Don't need right, find in try...red light  
Turn around, seem always to go my way

Old days don't come to find me  
This sun is just about to climb  
Up over there  
While my heart is sinking  
I do not want my voice to go out  
Into the air  
Did you leave the darkness without me?  
You're always miles ahead  
And we're standing in tomorrow  
On the runway  
On the runway.
