Won't you come alive  
Won't you come alive  
Wake me up inside  
Won't you come alive

Open up my eyes  
Open up my eyes  
Shake my heart inside  
Open up my eyes

Well I got a heart made of stone  
Tell me will you be the one to break this mold  
Shake my earth and rattle my bones  
Break out of this chamber and carry me home  
I've been sleeping for some years  
Having no good dreams  
Only scary nightmares  
Wake me from this awful slumber  
Strike me with your almighty thunder

Well a couple of mystics have described your form  
Saying you can never die for you've never been born  
Telling me you've come to kill all superstition  
Put the needle upon the record  
Show me what I've been missing  
I need a love that'll swallow me whole  
This ain't the first time I've tried to save my soul  
I need a God in living form  
You're all that I've got  
Aim your weapon darling  
Take your shot
