We got attracted like bees coming to the hive
Stir it up stir it up stir up that sweetness inside
Mama has been heating up that breakfast for quite
some time
It's time to swallow and show them we're not hollow
That we feel fine
We feel divine
Bhakti is on our side

Grab the sun and the moonlight
Oh it's time to turn some heads
We're gonna dance to it all night
And sing this chant

Mister mister
There ain't no secret
Love is over and beneath it
The rascals have returned to come and burn all of the
darkness that we find

Mister mister
There ain't no secret
Love is over and beneath it
The rascals have returned to come and burn all of the
darkness trying to hide

Well our love is universal it draws out perfect circles in
the sky
And oh it flows quite gently always giving plenty day or
night
Well I'm telling it like it is see so many fruits on this tree
mangos apples lemons and some limes
Under one sky we're dancing everyone is romancing
drinking golden lemonade with pride

Ram sita ram
Shyam rahde shyam
