Last time, when you were waiting for me
I tried to tell you all we had was a
Wrapped up scene, like I knew that it would
It all seems thin, but it sure feels good...
Cause it's the best I've seen when you
Fall down good, sink in the water
But you're walkin' on wood
This time, what are you waiting for?
Is it your time to walk away
Because the law's unseen, levels all good,
Hurdles all down like another time would...
Cause it's the best I've seen, what a
Fall down should, sink in the water
But you're walkin' on wood
Last time seen, walkin' on wood
Downstream drifting like a long time
Should... but now we're invisible, so all that's good
The law's unseen, levels all good,
Downstream drifting
Like a long time should, but now
We're invisible, so all that's good
Next time and I could wait forever,
Old times, because I thought I'd never
Wrap that scene like I knew that I should,
It all seemed thin but it sure felt good
Cause it's the best I've seen when you
Fall down good, sink in the water
But you're walkin' on wood
Walkin' on wood
Last time
Walkin' on wood
Now we're invisible
