"Love Is Freedom"

Visit "[Love Is Freedom](#)" on MotoLyrics.com

Beams blaze like an iron rod that burned into my soul
We made such a beautiful sound it can't be told
And I knew you hardly, knew you loved me too
Left me with an empty hole

Too long, not long enough that it took me by surprise
This pain that you left me with just looking in your eyes
And I knew you hardly, knew you loved me too
Left me with an empty hole

Love is freedom, love is freedom
Love, we all know
Love is freedom, love is freedom
Love, we all know

This pain, I would not have known had you not arrived
Still burns, down inside of me but it makes me feel
alive
Because I knew you hardly, knew you loved me too
Left me standing here alone

Love is freedom, love is freedom
Love, we all know
Love is freedom, love is freedom
Love, we all know

And I knew you hardly, knew you loved me too
Too long, not long enough and it's burned into my soul
This pain, took me by surprise

Love is freedom, love is freedom
Love, we all know
Love is freedom, love is freedom
Love, we all know

Love is freedom, love is freedom
Love, we all know
Love is freedom, love is freedom
Love, we all know
