Slow, slow, my brother  
You will sleep again  
Long, long, when it passes  
You will breathe again  
Snow falls, oh, and it passes

Time, time, in good time  
You will live again  
Hold on when it passes  
You will be again

Long, long, on and on  
Carefree and downstream  
You will live again, you will live again  
You will live again

All you'll be and all that's gone  
Is leading you on and on, on and on  
You will live again, you will live again

Slow, slow, my brother  
You will sleep again  
Long, long, when it passes  
You will breathe again

Snow falls, oh, and it passes  
You will sleep again, you will sleep again  
You will sleep again

All you'll be and all that's gone  
Is leading you on and on, on and on  
All you'll be and all that's gone  
Is leading you on and on, on and on

You will sleep again, you will sleep again  
You will sleep again, you will sleep again  
You will sleep again
