Is that a wind or a bug?  
Is that a wind or a bug?

Is that a wind or a bug?  
Is a windora bug  
Is that a wind or a bug?  
Is a windora bug  
Is that a wind or a bug?  
Is a windora bug

We've got the rules down now, we've got the rules  
down now  
(Is that a wind or a bug?)  
And we're done learning how to speak  
(Is a windora bug)

We're on the top of a cliff, we're on the top of a cliff  
(Is that a wind or a bug?)  
And we're wondering if we should leap  
(Is a windora bug)

We've got the rules down now, we've got the rules  
down now  
(Is that a wind or a bug?)  
And we're done learning how to speak  
(Is a windora bug)

We're on the top of a cliff, we're on the top of a cliff  
(Is that a wind or a bug?)  
And we're wondering if we should leap  
(Is a windora bug)

We've got the rules down now  
(Is that a wind or a bug?)  
(Is a windora bug)

Is that a wind or a bug?  
Is a windora bug

Or a bug  
Is that a wind?

Is it a tray or a ray?  
Is a tray or a ray

Is that a wind?  
That bug, bug  
Wind  
Is that a wind?

Is that a wind or a bug?  
Is a windora bug  
Is that a wind or a bug?  
Is a windora bug

Is that a wind or a bug?  
Is a windora bug  
Is that a wind or a bug?  
Is a windora bug

We've got the rules down now, we've got the rules  
down now  
(Is that a wind or a bug?)  
And we're done learning how to speak  
(Is a windora bug)

We're on the top of a cliff, we're on the top of a cliff  
(Is that a wind or a bug?)  
And we're wondering if we should leap  
(Is a windora bug)

We've got the rules down now, we've got the rules  
down now  
(Is that a wind or a bug?)  
And we're done learning how to speak  
(Is a windora bug)

We're on the top of a cliff, we're on the top of a cliff  
(Is that a wind or a bug?)  
And we're wondering if we should leap  
(Is a windora bug)

We've got the rules down now
