i close my eyes but can't deny  
you said goodbye and you're not here with me (yeah..)  
you are my light, my guiding light  
queen of the night, you are the air that i breathe  
(yeah..)  
and now i'm missing you  
(ooh ooh ooh ooh)  
what in the world can i do  
(ooh ooh ooh ooh)  
i never knew that i had fallen so deep  
now i see everything we're meant to be

baby don't press delete  
don't press delete  
don't let the way you're feeling now  
erase our good memories (whoa whoa)  
remember how it use to be  
so don't you go and replace me  
i'm willing to be all that you need  
if you don't (if you don't), if you don't (don't) press  
delete

i can't forget the way it felt  
and how we melt (?) (yeah..)  
i fall asleep only to dream about you and me  
and what a fool i've been (oh)  
to let you get away  
(ooh ooh ooh ooh)  
what in the world can i say  
(ooh ooh ooh ooh)  
i'm going through (?)  
one more chance (one more chance)  
is all i'm asking you for

baby don't press delete  
don't press delete  
don't let the way you're feeling now  
erase our good memories (whoa whoa)  
remember how it use to be  
so don't you go and replace me  
i'm willing to be all that you need

if you don't (if you don't), if you don't (don't) press  
delete

i'm waiting for your love to save me (no)  
please say that what we have ain't fading (no)  
mistake i made won't be repeated (no)  
this thing right here can't be deleted

baby don't press delete  
don't press delete  
don't let the way you're feeling now  
erase our good memories (whoa whoa)  
remember how it use to be  
so don't you go and replace me  
i'm willing to be all that you need  
if you don't (if you don't), if you don't (don't) press  
delete
